

# How to Install UCF Apps

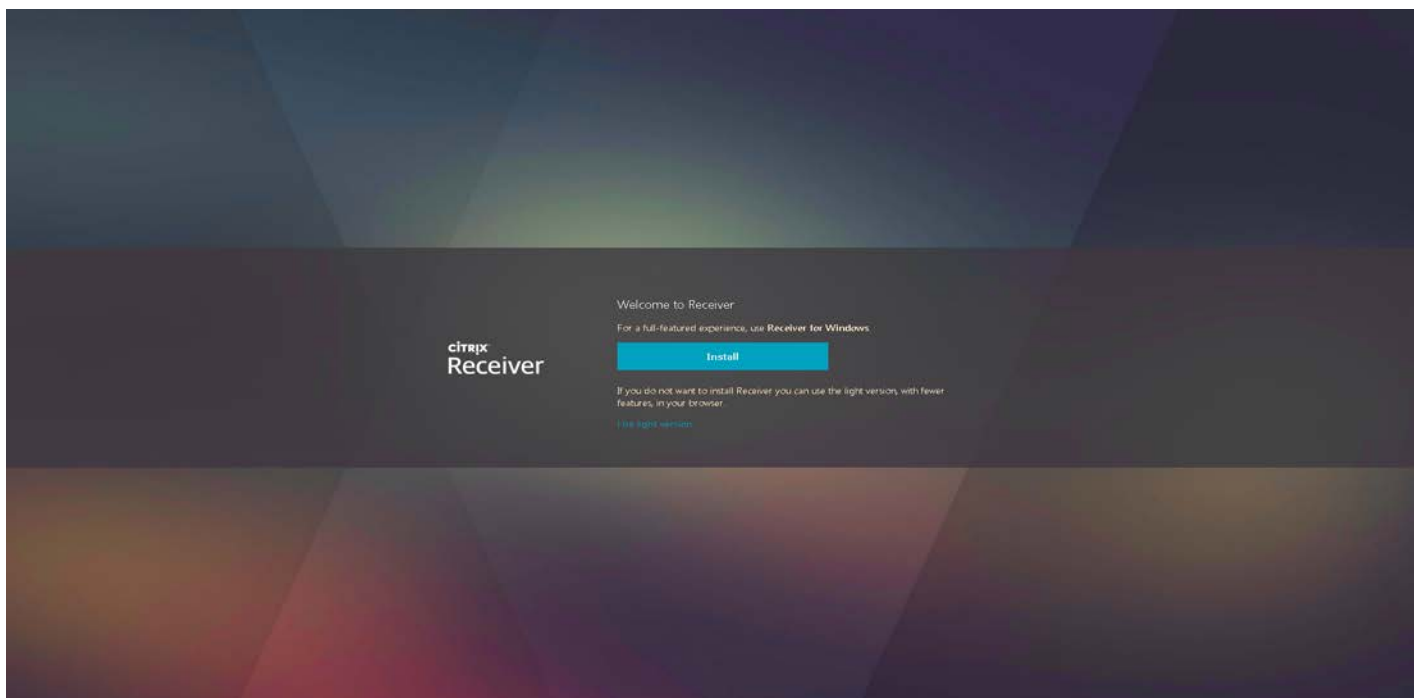

(Chrome Book)

Go to: <https://my.apps.ucf.edu/>

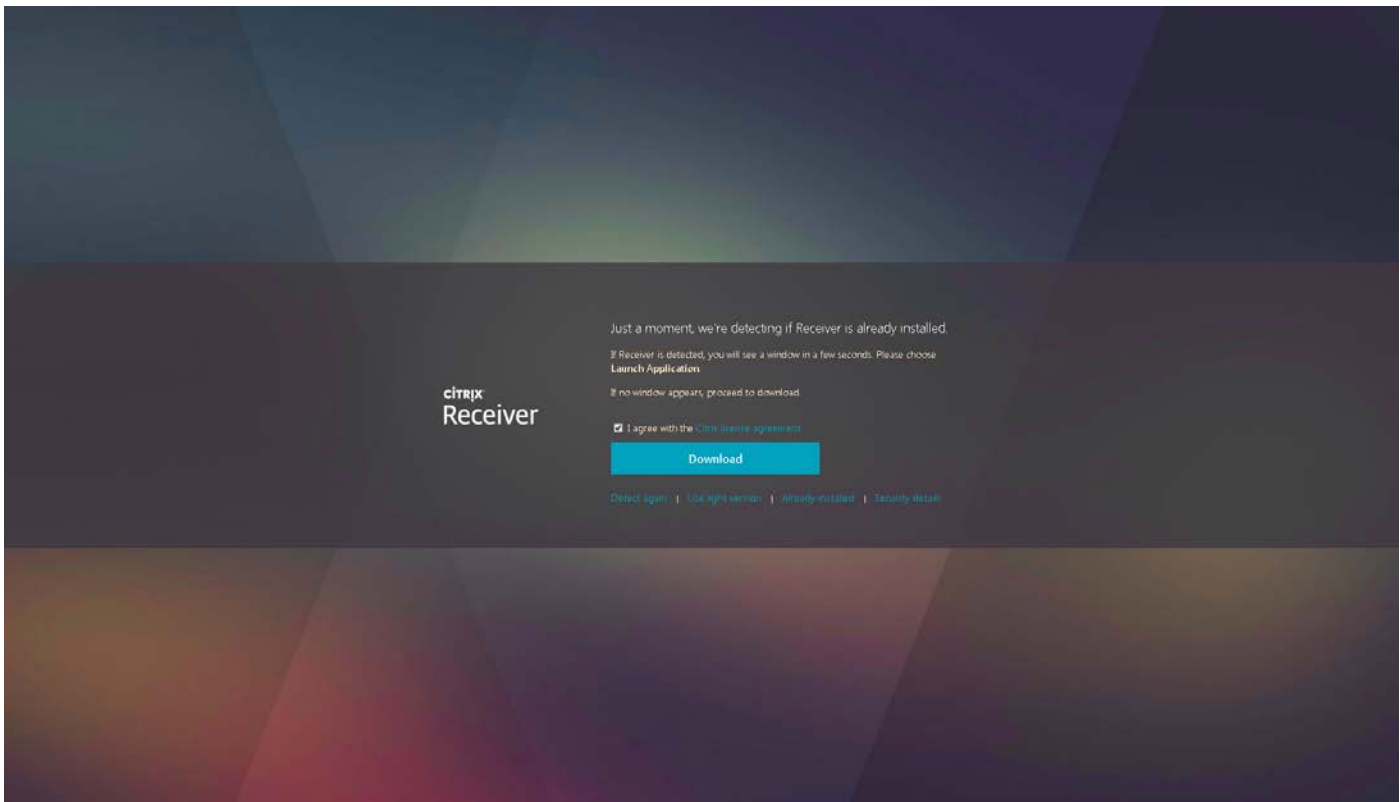

Login in with NID and NID Password

Click "Install".

Check "I agree", then click "download".

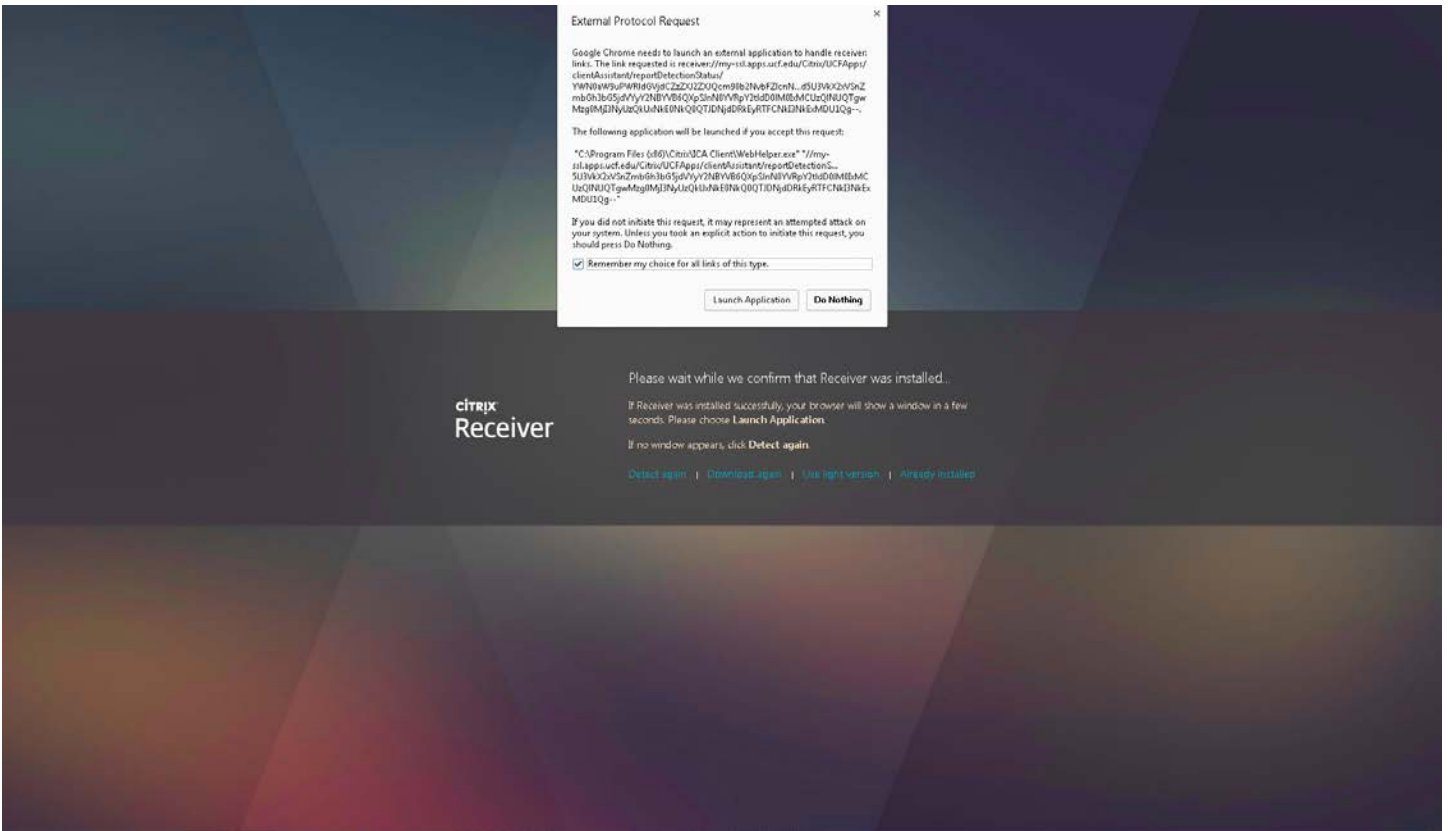

Once receiver downloads double click it, then click "Start".

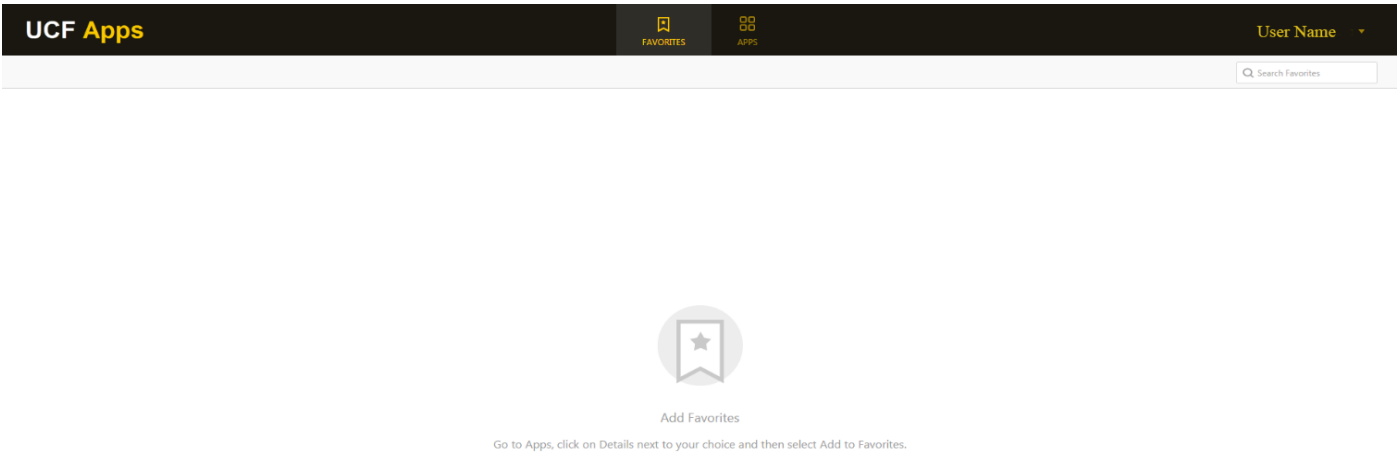

Click "I accept the license agreement", then next. Click "enable single sign on", then Next. Click "I agree" or "no thanks", then install. Click "continue" when installation is complete.

Check "Remember my choice for all links of this type", then click "Launch Application".

Note: If nothing happens click “Detect again”.

Click the Apps icon at the top center of the page of the page.

Then click “All Apps” if it is not on that category already.

All Apps
